*Excluding equipment used for commercial (income producing) purposes.

The Iron Eagle, the newest mower in the Dixie Chopper lineup, is a tough, compact unit. Powered by a Kohler engine (in 20, 23 and 25 hp), the new Iron Eagle is available in 44-, 50- and 60-inch deck widths. Despite its lower price tag, it includes some of the same rugged features that professionals use every day, continuing to set Dixie Chopper apart from other zero-turn mowers.
